PROFESSIONAL SUMMARY

Product-focused enterprise SaaS professional with 4.7+ years of experience bridging customer needs, technology and business outcomes. Skilled in identifying product gaps, translating customer pain points into actionable requirements and collaborating with Product and Engineering teams to drive improvements. Built **ORBIT ResolveIQ**, an internal AI-powered resolution copilot that reduced average resolution time by ~94%. Brings hands-on expertise in API integrations, root cause analysis, AI automation & data-driven problem-solving, with a strong focus on building scalable, customer-centric solutions.

PROFESSIONAL EXPERIENCE (~4.7 YEARS)

Tekion | Application Support Engineer | Bengaluru | Apr 2024 - Present

- Served as **subject-matter expert for Product and GTM** on Tekion's AP Automation initiative (AI-driven OCR + agentic AI): diagnosed the cost, error-risk and visibility gaps in manual AP workflows and shaped requirements to reposition AP as a strategic, working-capital-positive function with stronger financial controls.
- Built and deployed ORBIT ResolveIQ, an internal AI resolution copilot spanning 10 product modules, reducing average resolution time from 20-30 minutes to under 95 seconds (~94% improvement) and supporting its adoption as a standard cross-module support agent.
- Translated insights from 7,000+ support interactions into recurring customer pain points, prioritized feature requirements and feedback for Product and Engineering; investigated REST API, webhook, payload and data synchronization failures across Accounting, Payroll, TekionPay, Analytics, CRM and MFA.
- Defined requirements and built 8 additional internal AI agents using Tekion GPT and MCP, including a weekly audit bot, Slack/Jira/Confluence copilot, Training Agent and meeting assistant, automating recurring support workflows.
- Improved team CSAT from 85% to 94%, maintained 96%+ individual CSAT across 1,800+ interactions & contributed to an Internal support agent; mentored 6 new hires and developed and built internal knowledge documentation.

Cloud Software Group (Citrix) | Escalation Specialist - License Rights & Compliance | Bengaluru | Feb 2023 - Apr 2024

- Identified recurring licensing defects causing premature license expiry and RMA escalations; documented root causes and surfaced corrective actions to Product and Engineering.
- Reduced escalation cycle time by 15% through structured triage and proactive SLA tracking across APAC, EMEA and AMS, maintaining a 99.9% response SLA at peak volume.
- Built Salesforce CRM dashboards tracking CSAT, first-day resolution, time to closure, and productivity, supporting leadership decisions across regional escalation operations.
- Ranked among the top 1% of performers, achieving 98% CSAT, 84% FDR, 1.2-day TTC, and 125% productivity, with leaderboard recognition for 4 consecutive quarters.

Intellipaat | Senior Inside Sales Manager | Bengaluru | Feb 2022 - Jan 2023

- Increased sales conversion from 15% to 20% by redesigning outreach, lead qualification & coaching 10+ team members.
- Led a 6-7-member team to exceed a ₹1 crore monthly revenue target by 20%+ across reporting cycles.

EDUCATION

Product Management Fellowship | NextLeap, Bengaluru | Nov 2025 - Mar 2026

Top Fellow - 90.02%; ranked #1 in the April batch.

B.Tech, Computer Science and Engineering | Jain (Deemed-to-be University), Bengaluru | Jul 2018 - Jun 2022

CGPA: 8.55/10

SKILLS

Product Management: Product Requirements, PRD Writing, Product Prioritization, KPI Design, North Star Metrics, User Activation, Retention, Funnel Optimization, Hypothesis-Driven Experimentation, A/B Testing

Product Discovery and Research: User Interviews, User Surveys, Customer Pain-Point Analysis, Problem Framing, Root Cause Analysis, First-Principles Problem Solving

Analytics: Funnel Analysis, Cohort Analysis, Mixpanel, Salesforce Dashboards

APIs and Technical Troubleshooting: REST APIs, API Integration, Postman, cURL, API Log Analysis, Observe, Python, Webhooks, Data Synchronization, MySQL

AI and Automation: AI Agents, Agentic AI Workflows, Claude, Google AI Studio, Tekion GPT, MCP, n8n, Zapier AI, Cassidy AI, Codex

Product and Design Tools: Jira, Confluence, Miro, Whimsical, Figma, Lovable, Notion

CRM and Enterprise Platforms: Salesforce CRM, Zoho CRM, Tekion ARC

PROJECTS

Compass - AI Decision Layer for Claude | Anthropic Growth Brief | Independent Product Case Study

- Designed and built a prototype for transparent AI-agent execution plans, estimated costs, confidence indicators, and risk checks, informed by 7 user interviews and 75 surveys.
- Modeled product targets for agent adoption growth from 21% to 45%, failed runs down 40%, and Confident Decision Rate from 30% to 82% over 12 months; all are projections, not production results.

Attune - Digital Wellbeing, Rebuilt | NextLeap Cohort 43 | Independent Product Case Study

- Built a digital wellbeing prototype using AI-classified scrolling triggers, personalized weekly insights, and voluntary behavior adjustments; informed by 92 surveys and 7 interviews.
- Defined modeled growth and monetization targets of 50% Self-Understanding Activation Rate by Month 6 and ₹36 crore Year 1 ARR, based on proposed 8-16% conversion assumptions; not realized commercial results.

ACHIEVEMENTS AND POSITIONS OF RESPONSIBILITY

- Best Performer : Cloud Software Group (Citrix): Won the leaderboard for 4 consecutive quarters, ranking in the top 1%.
- Celebrity Account Management : Managed social media handles of 3 Biggboss Telugu contestants.
- Cloud Software Group (Citrix): Recognized as the youngest member promoted to the Escalations & License Rights team.
- INSPIRE Science Fair Winner : MANAK Scheme: Won the competition in Andhra Pradesh.
- Sports: State-level cricket and handball player; competitive esports participant.
